## 3.0 PROPOSAL FOR FIXED NETWORK ACCESS

### 3.1 Introduction

- 3.1.1 TIME dot Com offers a wide variety of fixed-line telecommunications services. As part of our commitment to provide our customers with the best possible solutions to serve all their communications needs; we aim to enhance telecommunication services in your building to offer your tenants with High Speed Internet, Data and Voice connectivity. Your premises will be enhanced today for tomorrow's communication and IT requirements. With that, we provide a choice of Service Providers to your tenants and your building gains a future-proof communication infrastructure.
- 3.1.2 A physical infrastructure link to the building is the main access to deliver services to the tenants. The typical link required is through fiber optic cable.
- 3.1.3 In order to support the services, TIME dot Com require an access to the propose MDF room and Server room in order to provide services to the end user.
- 3.1.4 To be able to deliver these services to your building, we will pull our own fiber optic cables from our nearest hub and place our passive access equipment into building server room. (Optional in this proposal)
- 3.1.5 With this setup we will have TIME dot Com connection right up to each block of the building.

### 3.2 External and Internal Trenching

- 3.2.1 The propose route will start from the existing Tdc Manhole to Building Mh. The propose route continue to Hub-Box in existing Building Manhole.
- 3.2.2 The permission to trench inside local authority jurisdiction to be applied separately if necessary.
- 3.2.3 This proposal is based on assumption that there is fiber cable to be connected in the existing TIME manhole.

### 3.3 Equipment Foot Space & Weight

3.3.1 Below is the TIME dot com' standard requirement that will be installed at common MDF Room/SDF Room/Server Room.

Description	Remarks
N/A	N/A

1.3.2 However depending on the network requirement, Time dot Com may or may not add additional network equipment(s) in the MDF room or the vertical riser as it may apply.

3.4 Location Map
