DEPTH UTILITY TYPE  
\* P = POWER  
W = WATER  
T = TELECOM

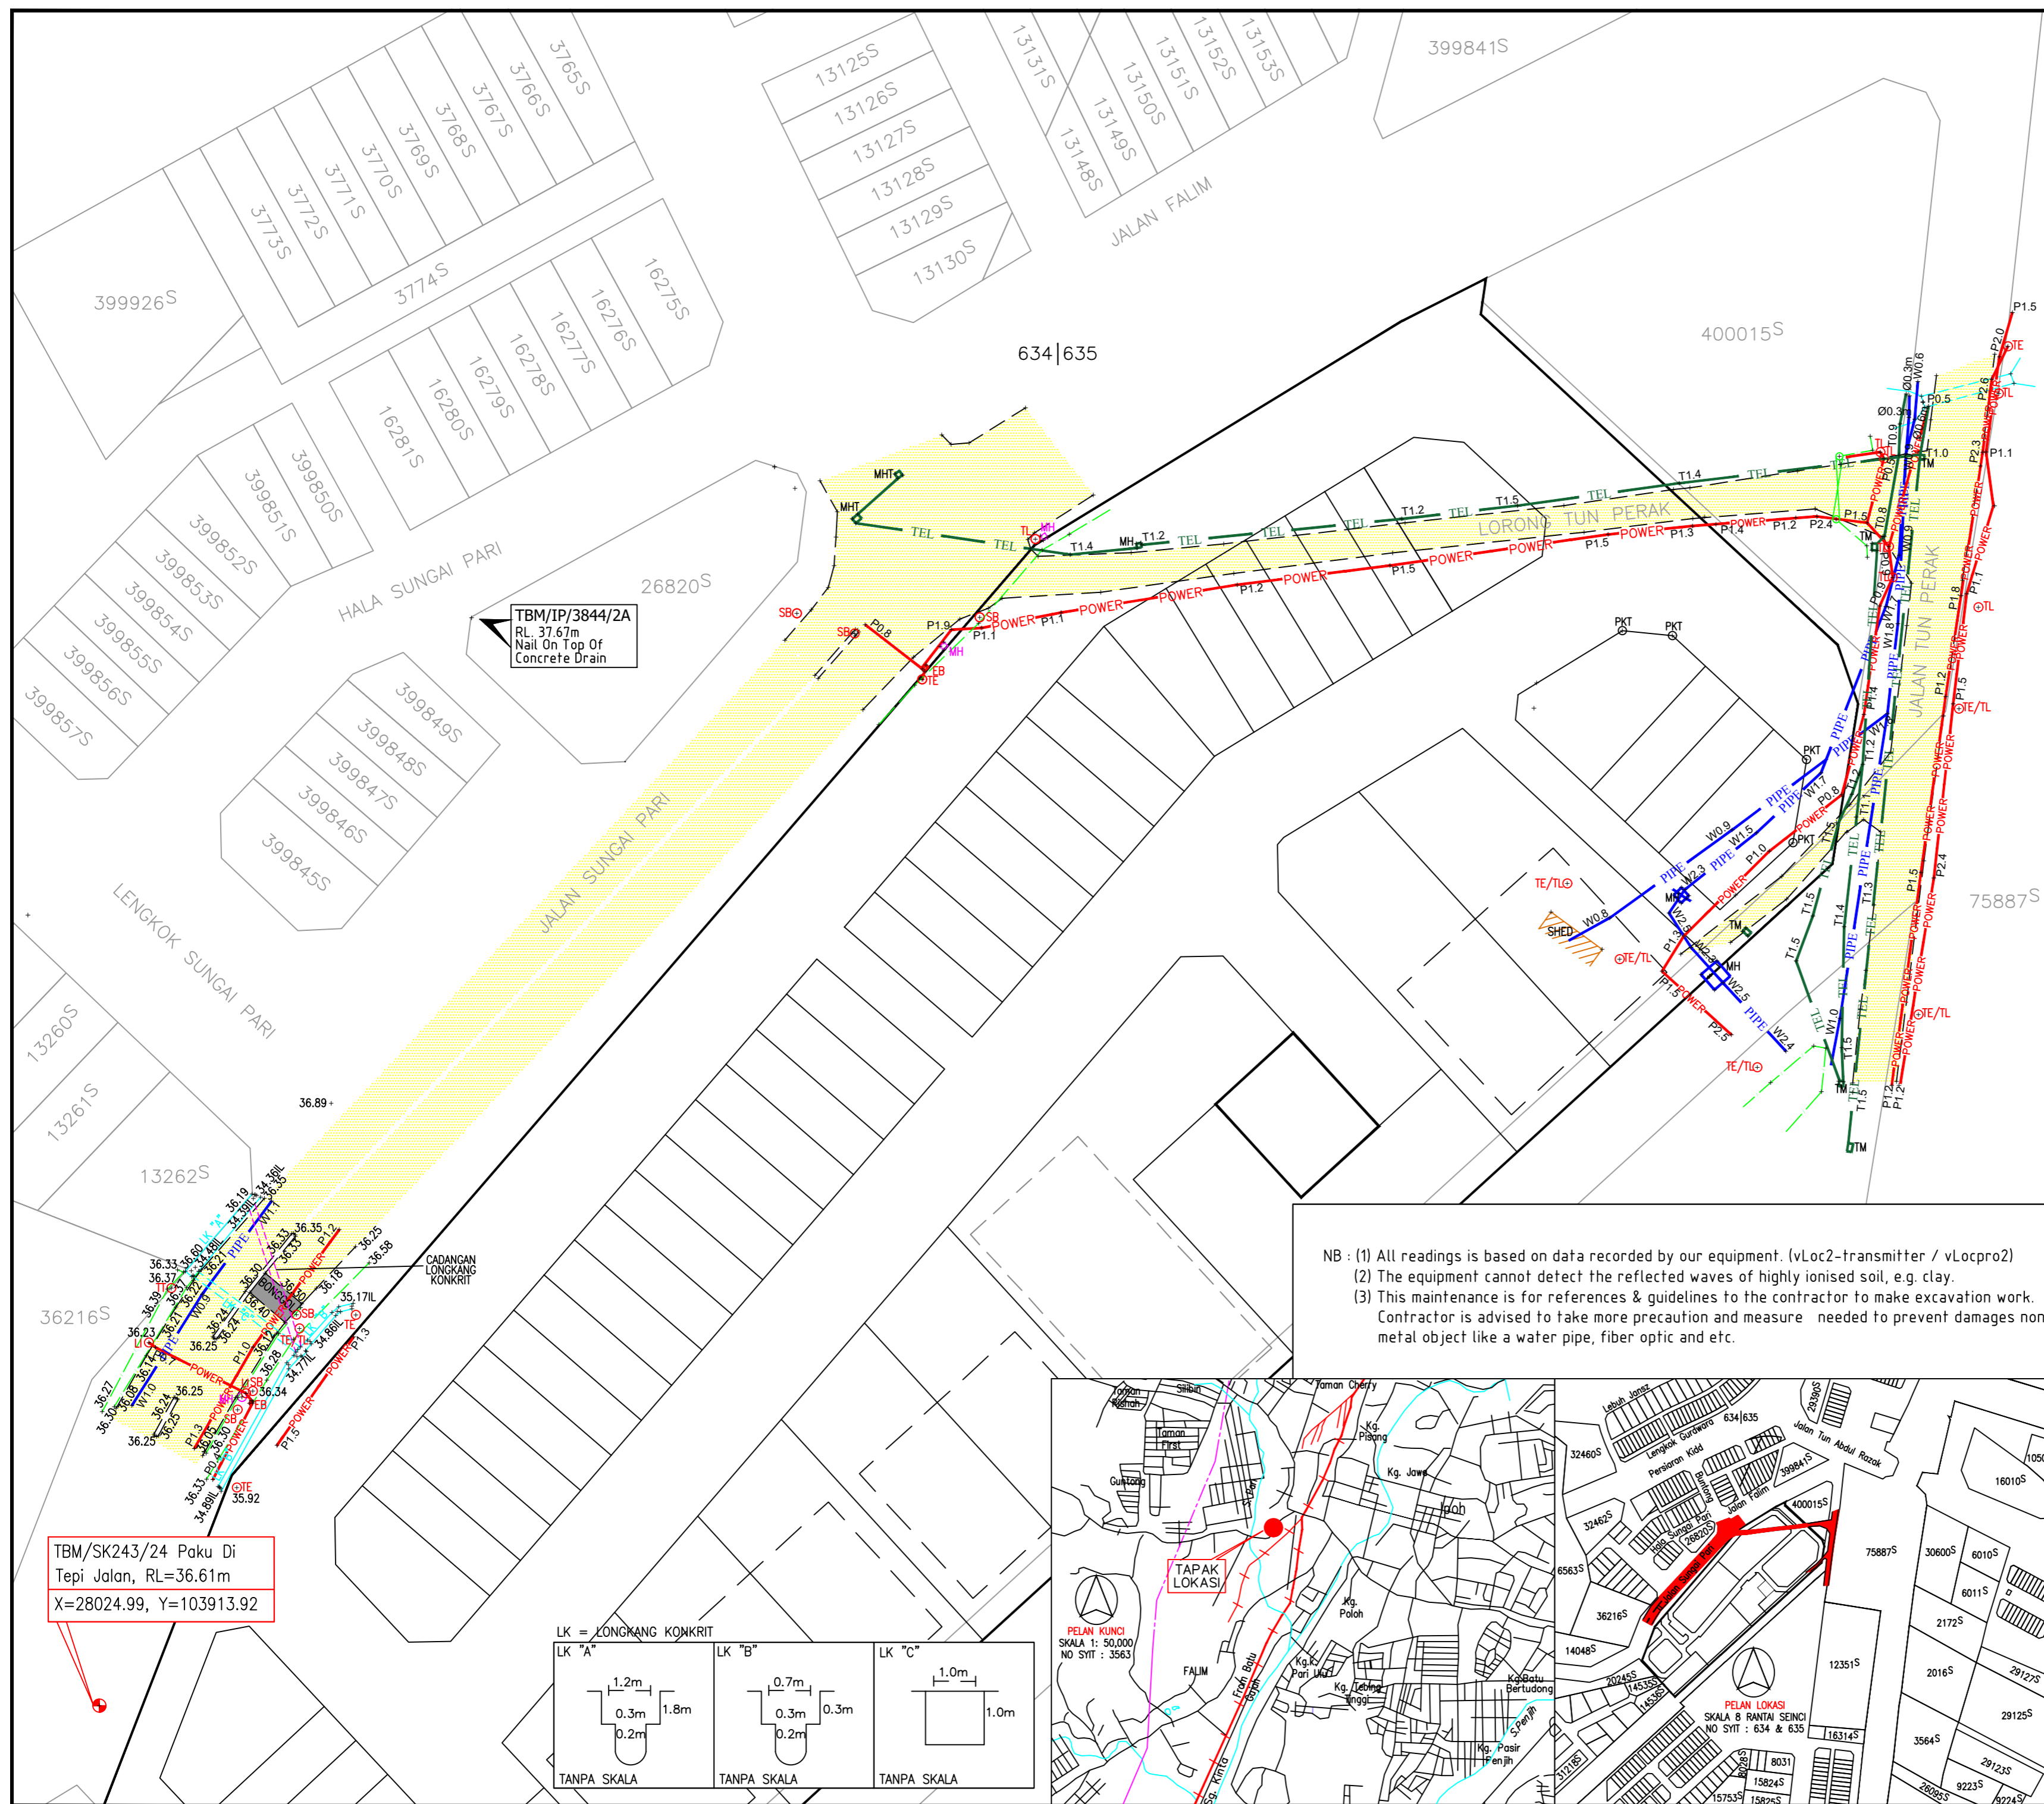

NB : (1) All readings is based on data recorded by our equipment. (vLoc2-transmitter / vLocpro2)  
(2) The equipment cannot detect the reflected waves of highly ionised soil, e.g. clay.  
(3) This maintenance is for references & guidelines to the contractor to make excavation work. Contractor is advised to take more precaution and measure needed to prevent damages non metal object like a water pipe, fiber optic and etc.
